Giving World Online www.givingworldonline.com is a non-profit organisation that was founded by sisters Rama and Sujata Bhalla. Their vision is to create a society where no one is in want because nothing is wasted. The organisation now works with a network of over 400 global businesses and charitable organisations to redistribute unwanted goods - that would otherwise go to waste - amongst those most in need. The charity has redirected £1.5 million worth of unwanted goods, and prevented a staggering 200 tons of surplus from ending up in landfill sites, with its environmentally-friendly approach to giving.
